Methuen, MA 01844

Phone: (978) 983-8940  
fax:

DATE: September 29, 2011

The City of Methuen, MA Fire Department has filed an application for a new FCC license to operate on UHF repeater pair 484.925/487.925 MHz. The FCC requires a letter of concurrence for co-channel operations when the distance between stations is less than 64 km (40 miles) in this portion of the spectrum. In this case the distance between your station WPLX747 and our proposed location 1 is 2.5 km (1.6 miles), and 3,896 feet between our base station proposed at location 2 and your repeater.

FCC rules provide for shared use of the frequency spectrum for co-channel channel users with the procedures that follow. One of these procedures is to obtain a Letter of Concurrence (LOC) from the current licensee. Further, per FCC rules, a response is required within 10 days of receipt of a request for concurrence. The response may be affirmative or negative.

In addition, it is our understanding that you will provide a letter of concurrence for the City of Lawrence, MA Police Department to re-license on 482.5625/485.5625 Mhz.

With these provisions, we.

APPROVE X

OBJECT \_\_\_\_\_

of the City of Methuen, MA Fire Department using UHF repeater pair 484.925/487.925 MHz.

If OBJECTING, reason for objection: \_\_\_\_\_
